

DUI FIRST OFFENDERS

Alcohol Involved - Non-Injury

21 and Older

IF YOU ARE **ARRESTED** FOR DRIVING UNDER THE INFLUENCE (DUI)

ADMINISTRATIVE PER SE (APS)

The Department of Motor Vehicles (DMV) is **required** to suspend or revoke the driving privilege of any person **arrested** for DUI of alcohol or a combination of alcohol and drugs, who:

- Takes a chemical test (blood or breath) that shows a blood alcohol concentration (BAC) level of 0.08% or more while driving a noncommercial vehicle, 0.04% while driving a commercial vehicle, and/or a 0.01% while on DUI probation, **OR**
- Refuses to take or fails to complete a chemical test (blood or breath) to determine their BAC level.

The DMV suspension or revocation is an immediate administrative action taken against your driving privilege. Any sanctions imposed by the DMV under APS are independent of any court-imposed jail sentence, fine, criminal penalty, or suspension or revocation imposed by DMV when a person is convicted for DUI (see reverse).

LICENSE SUSPENSION

If you are 21 years of age or older, took a chemical or urine test, the results showed 0.08% BAC or more and this is your first DUI arrest, you will receive a **4-month license suspension**. At the time of your arrest, the officer will confiscate your license and issue you an Order of Suspension and Temporary License. You may drive for 30 days from the date the order of suspension or revocation was issued, provided you have been issued a California driver license and your driver license is not expired, or your driving privilege is not suspended or revoked for any other reason. Your 4-month suspension will take effect after those 30 days.

ADMINISTRATIVE HEARING OPTION

You have the right to request a hearing from the DMV within 10 days of receipt of the suspension or revocation order. If the review shows there is no basis for the suspension or revocation, the action will be set aside. The DMV hearing is an administrative proceeding regarding your driving privilege and the circumstances surrounding the arrest, not whether you are innocent or guilty of a criminal act. More information regarding APS hearings can be found on the DMV's website, www.dmv.ca.gov.

IF YOU ARE **CONVICTED** OF DRIVING UNDER THE INFLUENCE (DUI)

If you are convicted of DUI (CVC §23152), the Department of Motor Vehicles (DMV) will suspend your driving privilege for **6 or 10 months**. You may be subject to fines, penalties, and other restrictions in addition to any suspension of your driving privilege. The suspension based on your conviction may run concurrently to the APS suspension the DMV takes upon your arrest (see reverse).

Note: If your BAC was greater than 0.20%, the court may require DMV to suspend your driving privilege for 10 months. You will also be required to complete a 9-month DUI program.

The Court Ordered You to Install an Ignition Interlock Device (IID)

- When the court orders you to install an IID, you must have one installed by an authorized installer and provide proof of installation to the court. The court has special forms and procedures to monitor drivers ordered to install an IID.
- After the DMV is notified by the court, the DMV will place a restriction on your driver record and mark your driver license, so law enforcement officers are aware of the IID requirement if you are stopped.
- If you fail to comply with a court-ordered IID restriction, the court may notify the DMV and your driving privilege may be suspended until you comply with the court order.
